

Vulnerability Assessment

Assess Your Security Posture + Optimize Your IT Investment

A vulnerability assessment helps you proactively identify and address security weaknesses as the threat landscape evolves to mitigate the risks of cyberattacks and data breaches.

Compugen Systems Inc. employs a systematic process to identify, evaluate, and prioritize security weaknesses and recommends remediation actions to help you strengthen your security posture and ensure regulatory compliance.

Over
26,000 vulnerabilities
were disclosed in 2023.

82% of companies rely on
the prioritization of vulnerabilities.

INNOVATE AND INSPIRE WITHOUT COMPROMISING SECURITY

Our expert-led, comprehensive process targets vulnerabilities in your environment to identify security gaps and provide a clear remediation path.

PLAN

Planning and coordination, including project kick-off, budget monitoring, issue escalation, and project closedown.

A non-destructive and phase-wise approach to scanning all the devices and hosts.

SCAN

Internal and/or external vulnerability scanning of determined hosts using industry-leading tools.

Discovery of all live hosts in the network.

Scripting for network and advanced scans on live servers/hosts.

REPORT

Detailed report on findings from discovery/reconnaissance, passive and active scanning, and enumeration.

Remediation recommendations to help prioritize your resources.

We Dream Big With You

We embody a growth mindset that bridges security expertise with passion and ingenuity to drive unprecedented growth for our clients.

1

Gain visibility into your corporate security posture.

2

Proactively identify and address security weaknesses.

3

Reduce the risk of cyberattacks and data breaches.

4

Comply with industry regulations and standards.

5

Focus resources on the most impactful remediation actions.

6

Optimize your security investment.

Your Experience ArchiTECH

Organizations trust Compugen Systems' skilled and experienced security experts to recommend, design, implement, and operate solutions to improve their security posture. With offices throughout North America, we help organizations make meaningful progress and realize new possibilities. **Go ahead, dream big — we've got your back.**
