

# Windows 11 Pro Transition Readiness

## A Structured + Efficient Approach

With Microsoft ending Windows 10 support in October 2025, transitioning to Windows 11 Pro ensures continued access to crucial security updates, technical support, and innovative features that protect your organization from emerging threats.

At Compugen Systems Inc., we help you leverage Windows 11 Pro's advanced automation and optimized workflows to boost productivity while protecting critical data with a solid security foundation.

Windows 11 adoption is growing and has achieved a market share of

**38.13%**  
as of February 2025.

### LET'S TRANSFORM YOUR IT EXPERIENCE

We start every project by understanding your business objectives and aligning our strategy with your vision. Then, we follow industry best practices to ensure seamless implementation:

#### Workshop + Assessment

Review your objectives and assess your infrastructure, including user endpoints, virtual desktop infrastructure (VDI), and Meeting Rooms.

#### Solution Design

Create a detailed technical enablement plan to leverage Microsoft Intune and Autopilot for streamlined deployment.

#### Technology Validation

Validate and configure necessary technologies to support the transition.

#### Device Enrollment

Configure automatic joining and enrollment for new and repurposed devices.

#### Pilot Program

Conduct a pilot rollout on a subset of devices to confirm readiness and address issues.

# We Dream Big With You

At Compugen Systems, we are more than IT service providers. We architect tailored solutions and experiences to help you lay the foundation for business breakthroughs.

1

A comprehensive analysis of your endpoint provisioning processes and Windows 11 readiness recommendations.

2

User endpoint-management infrastructure enabled and tested to support a seamless Windows 11 rollout.

3

Validation of in-place upgrades and out-of-box experiences using Microsoft Intune and Autopilot.

4

Optional assessments to evaluate device and application readiness for Windows 11:

- Assess physical and virtual devices running Windows 10 or older to determine upgrade readiness.
- Evaluate the compatibility of selected applications with Windows 11.
- Integrate hybrid co-management with Microsoft Endpoint Configuration Manager (MECM).

## Your Experience ArchiTECH

Compugen Systems is a trusted North American leader in Microsoft solutions. With more than two decades of experience as a Microsoft partner, our certified professionals deliver expert guidance and access to exclusive tools, training, and intellectual property. We align our solutions with your IT and business goals to drive impactful results. **Go ahead, dream big — we've got your back.**
